

TABLE OF CONTENTS

SYNOPSIS	5	4.2 Main companies generating electrical energy through operating photovoltaic systems.....	54
INTRODUCTION	7	4.3 Financial indicators of the industry	65
1. GENERAL INFORMATION	8	5 MARKET	75
1.1 Energy sources.....	9	5.1 The structure of the Greek energy sector.....	76
1.2 Definition	10	5.2 The Greek electricity transportation system....	79
1.3 Solar energy harvesting technologies.....	11	5.3 Renewable Energy Sources (RES) in Greece.....	81
1.4 Description of photovoltaic systems.....	12	5.4 Photovoltaics in Greece.....	83
1.5 Categories of photovoltaic systems.....	15	5.5 The development of electricity production from photovoltaics in Greece.....	88
2. INSTITUTIONAL FRAMEWORK & LICENSING	17	5.6 Investment in photovoltaics in Greece.....	90
2.1 Institutional framework.....	18	5.7 Size of the local Photovoltaic energy market in value.....	91
2.2 Licensing.....	31	5.8 Pricing policy.....	92
2.3 Pricing policy-Guaranteed prices.....	37	5.9 Porter's five forces.....	95
3. DEMAND	42	6. INTERNATIONAL MARKET	98
3.1 Determinants of demand	43	6.1 The European Photovoltaic market.....	99
4. OFFER	49	6.2 European Photovoltaic market perspective.....	106
4.1 Major photovoltaic parks under the valid electrical energy generation license.....	51	6.3 The global Photovoltaic market.....	108
		6.4 Global Photovoltaic market perspective.....	112

TABLE OF CONTENTS

7. CONCLUSIONS - PROSPECTS.....	114
7.1 SWOT Analysis.....	115
7.2 Main findings-Prospects.....	116
ANNEX A.....	119
Financial ratios of major enterprises of the industry.....	119
A.Capital structure indicators and financial leverage.....	120
B. Liquidity indicators	130
C. Activity indicators.....	134
D. Performance indicators.....	144
Types of financial indicators.....	154
ANNEX B.....	155
The solar energy station of each company, under the valid electrical energy generation license..... ..	156
SOURCES & BIBLIOGRAPHY.....	206
