

TABLE OF CONTENTS

EXECUTIVE SUMMARY	5	3. DEMAND	55
INTRODUCTION	7	3.1 Determinants of demand.....	56
1. GENERAL INFORMATION	8	3.2 Consumption trends - Packaging.....	58
1.1 Industry definition.....	9	3.3 Consumption trends - Vehicles.....	61
1.2 Established categories and waste streams.....	11	3.4 Consumption trends - Vehicles Tires.....	63
2. INSTITUTIONAL FRAMEWORK	12	3.5 Consumption trends - Vehicles and Equipment	
2.1 General institutional framework.....	13	Accumulators	65
2.2 Institutional framework - Green spots.....	28	3.6 Consumption trends - Batteries.....	66
2.3 Institutional framework - Packaging and waste		3.7 Consumption trends - Electrical and	
packaging.....	29	electronical equipment.....	67
2.4 Institutional framework - End Life Cycle		3.8 Consumption trends - Construction.....	69
Vehicles (ELV)	34	4. SUPPLY	70
2.5 Institutional framework - Used vehicles tires....	38	4.1 Supply structure.....	71
2.6 Institutional framework - Lubricant oils waste....	39	4.2 Approved systems of alternative management..	74
2.7 Institutional framework - Batteries and		4.3 Turnover growth of major companies of the	
accumulators (WB & A) waste.....	41	industry (2014-2019).....	79
2.8 Institutional framework - Electrical and		4.4 Ranking of major companies based on turnover	
Electronic Equipment (WEEE) waste.....	44	2019.....	84
2.9 Institutional framework - Excavation		4.5 Financial analysis of the industry (2011-2019)...	87
Construction & Demolition waste	48	4.6 Groups of companies financial indicators	
2.10 Institutional framework - Hazardous		comparison (2019).....	94
waste.....	50	4.7 Consolidated balance sheet Assets - Liabilities	
2.11 Institutional framework - Cross border		structure.....	96
transfer of waste.....	52	4.8 Companies financial result growth.....	97
2.12 Institutional framework - Highlights.....	54		

TABLE OF CONTENTS

4.9 Comparative assessment of the leading companies' financial indicators (2019).....	101	7.9 USA data - Solid urban waste.....	174
5. VALUATION OF COMPANIES OF THE INDUSTRY..	105	7.10 USA data - Importance of recycling and waste utilization.....	175
5.1 Valuation methodology.....	106	7.11 International scrap transportation 2018.....	177
5.2 Valuation of companies of the industry (2015-2019).....	107	7.12 Trend in the International Scrap Market.....	178
6. MARKET	108	8. CONCLUSIONS-PROSPECTS	182
6.1 Characteristics of alternative management per stream.....	110	8.1 SWOT Analysis.....	183
6.2 Domestic market size (2011-2019).....	140	8.2 Main findings - Prospects.....	184
6.3 Cumulative concentration degree	141	APPENDIX	
6.4 Porter's five forces.....	142	Financial indicators of companies of the industry (2011-2019).....	190
7. INTERNATIONAL MARKET	149	A. Capital structure and financial leverage indicators.....	191
7.1 Data of EU-28 - Urban waste.....	150	B. Liquidity indicators.....	215
7.2 Data of EU-28 - Packaging.....	154	C. Activity indicators.....	227
7.3 Data of EU-28 - (End of Life Vehicles "ELV").....	157	D. Performance indicators.....	251
7.4 Data of EU-28 - Tires.....	160	Financial formulas.....	271
7.5 Data of EU-28 - Lubricant oils waste.....	165	SOURCES & BIBLIOGRAPHY	272
7.6 Data of EU-28 - Batteries and accumulators	167		
7.7 Data of EU-28 - "WEEE" Waste Electrical and Electronic Equipment.....	169		
7.8 Data of EU-28 - (Construction and Demolition Waste – CDW).....	173
